About Me

I am a passionate full-stack web developer with a knack for building elegant and efficient web applications. Welcome to my portfolio, where I showcase my journey through code and creativity. Explore my projects to see how I bring ideas to life!

Projects

E-commerce Platform

A full-featured e-commerce platform built with Laravel and Vue.js, including product management, shopping cart, and payment gateway integration.

Technologies: Laravel, Vue.js, MySQL, Stripe

Link: <https://github.com/your-username/ecommerce-platform>

Task Management API

A RESTful API for managing tasks, built with Laravel and Sanctum for authentication. Includes user authentication and task CRUD operations.

Technologies: Laravel, Sanctum, MySQL, PHPUnit

Link: <https://github.com/your-username/task-management-api>

Blog Application

A simple blog application with a clean interface, allowing users to create, edit, and publish posts. Features a rich text editor and comment section.

Technologies: Laravel, Blade, MySQL, Bootstrap

Link: <https://github.com/your-username/blog-app>

Portfolio Website

This very portfolio website, showcasing my skills and projects. Built with Laravel and a custom admin dashboard for easy content management.

Technologies: Laravel, Blade, Bootstrap, MySQL

Link: <https://github.com/your-username/portfolio-website>
